Ms Irene Clurman
Box 6713
Denver, CO 80206

Dear Ms Clurman,

Thanks so much for letting us know about the works of Bill Hosack. Since your call, we've been in touch with the curator of the Fort Collins Museum (Brian Moroney) and have given him our statement of support for the preservation of that site.

We thought you'd like to see this article from the most recent issue of Muse.

We'll be giving our continuing support to this project, and hope that you will keep us informed of any community activities or related projects which develop regarding the site.

We really appreciate your awareness of our activities, and thank you again for your involvement in site preservation.

Sincerely,

Seymour Rosen
Director
