Dear Mr. Moroney,

I enjoyed our conversation last week regarding the preservation of Bill Hosack's works. SPACES is ready to put its support behind any such activities, especially those which will preserve the site intact.

We have, in previous years, corresponded with someone who may be helpful to your cause. She is:

Nancy V. Gauss
Chief
Information Management
Colorado Preservation Office
Colorado Historical Society
1300 Broadway
Denver, CO 80208

We will be contacting herewith our support of the Hosack work.

We look forward to assisting you in this preservation project. Please keep us informed regarding your progress and your needs.

Sincerely,

Seymour Rosen
Director
