Dear Friends,

In endeavoring to save and perpetuate the two beautiful folk customs of the Slovenes in our country, we have published a documentation of the customs in booklet form with a cassette tape of the singing of the songs pertaining to the customs.

We did receive a small grant from the Ohio Arts Council but this has been hardly enough to cover our cost of this project, therefore we are asking your support in the purchase or promotion of this project - or any advice you can give us -

Thank you
